Dear Bishop Robert,

As Lead Bishop for the Environment, I am writing to congratulate you, Elizabeth Bussmann-Morton and the whole of the Diocese in Europe on the award of A Rocha UK’s bronze Eco Diocese award.

Given the variety of your contexts this is an incredible achievement and will be the sum of much prayer, reflection and action. To see people across the continent championing the care of our single island planet home is of vital importance and I am sure will influence other denominations as well.

At this time of great upheaval across Europe this is a sign of much needed hope. Well done!

Now for silver and gold!

With all good wishes and every blessing.

+ Graham Norwich
